

## **Workshops with Prof. Dr. Klaus Keller**

**13th April, 2016:**

**'Metrics in the context of Climate Engineering'**

**14th April, 2016:**

**'Uncertainty Quantification in the context of Climate Engineering'**

During the workshop we will present the state of our current research on the respective topic. Based on that we will encourage a open discussion on the topic, with constructive ideas.

The workshops are organised to include the expertise of the SPP 1689 [guest scientist, Prof. Dr. Klaus Keller](#) from the Institute of Sustainable Climate Risk Management at Penn State University.

**Venue:**

Kiel, IBZ (Internationales Begegnungszentrum der Uni Kiel / Guest House of Kiel University), Kiellinie 5
